POT & BEDDING 2018

Royal Van Zanten

Team Royal Van Zanten

Driven by passion

Plants are becoming more popular all the time. They enhance the environment, have a positive effect on health, purify the air, and their roots hold water after heavy rainfall so that our feet don't get wet. More and more people are recognising this, and we at Royal Van Zanten are proud to make our own contribution by breeding attractive and robust new varieties. These cultivars not only look great, they are also rigorously selected for their long life expectancy and, more importantly, whether they can be grown with reduced amounts of plant protection products. Royal Van Zanten is fully committed to sustainability and actively works on "greening" its businesses both in the Netherlands and at production sites. This enables us to supply first-class, MPS-certified starting material which complies with current sustainability requirements.

Our 2018 catalogue once again offers a whole range of new introductions. Those of you who attended our successful FlowerTrials® 2017 have already had a preview of these, but I would like to mention some particular highlights:

- Multiflora Amadore® Red: an intense, deep red flower and a perfect spherical habit. The Amadore® series is now available in six colours. Amadore® varieties are suitable for cultivation with or without blackout.
- Aster Showmakers® Magenta: a new, unique colour in our Aster assortment with the same superior qualities as the other varieties in the Showmakers® series.

- Bellevardia® Snow White: distinctive with its snow-white flowers and appealing, compact plant shape. This is just one of the three new Bellevardia® varieties.
- Celosia Merida Purple 18: the new Celosia for all customers who are looking for a plant with compact growth and deep purple flowers. No blackout required!
- Twelve new introductions in the Pot Chrysanthemum product group, featuring distinctive eye-catchers in the form of two disbud spider varieties: Fireworks™ Cream and Fireworks™ Yellow.

At Royal Van Zanten we understand that success takes more than just one stunning variety and first-class cuttings. Team Royal Van Zanten will always go the extra mile to help you score on the market with our innovative varieties. We therefore offer a wide range of sales concepts as well as specialist support during the cultivation process. This catalogue contains some good examples of these services, but you should also take a look at our website to learn more about what we can do for you in this area (www.royalvanzanten.com).

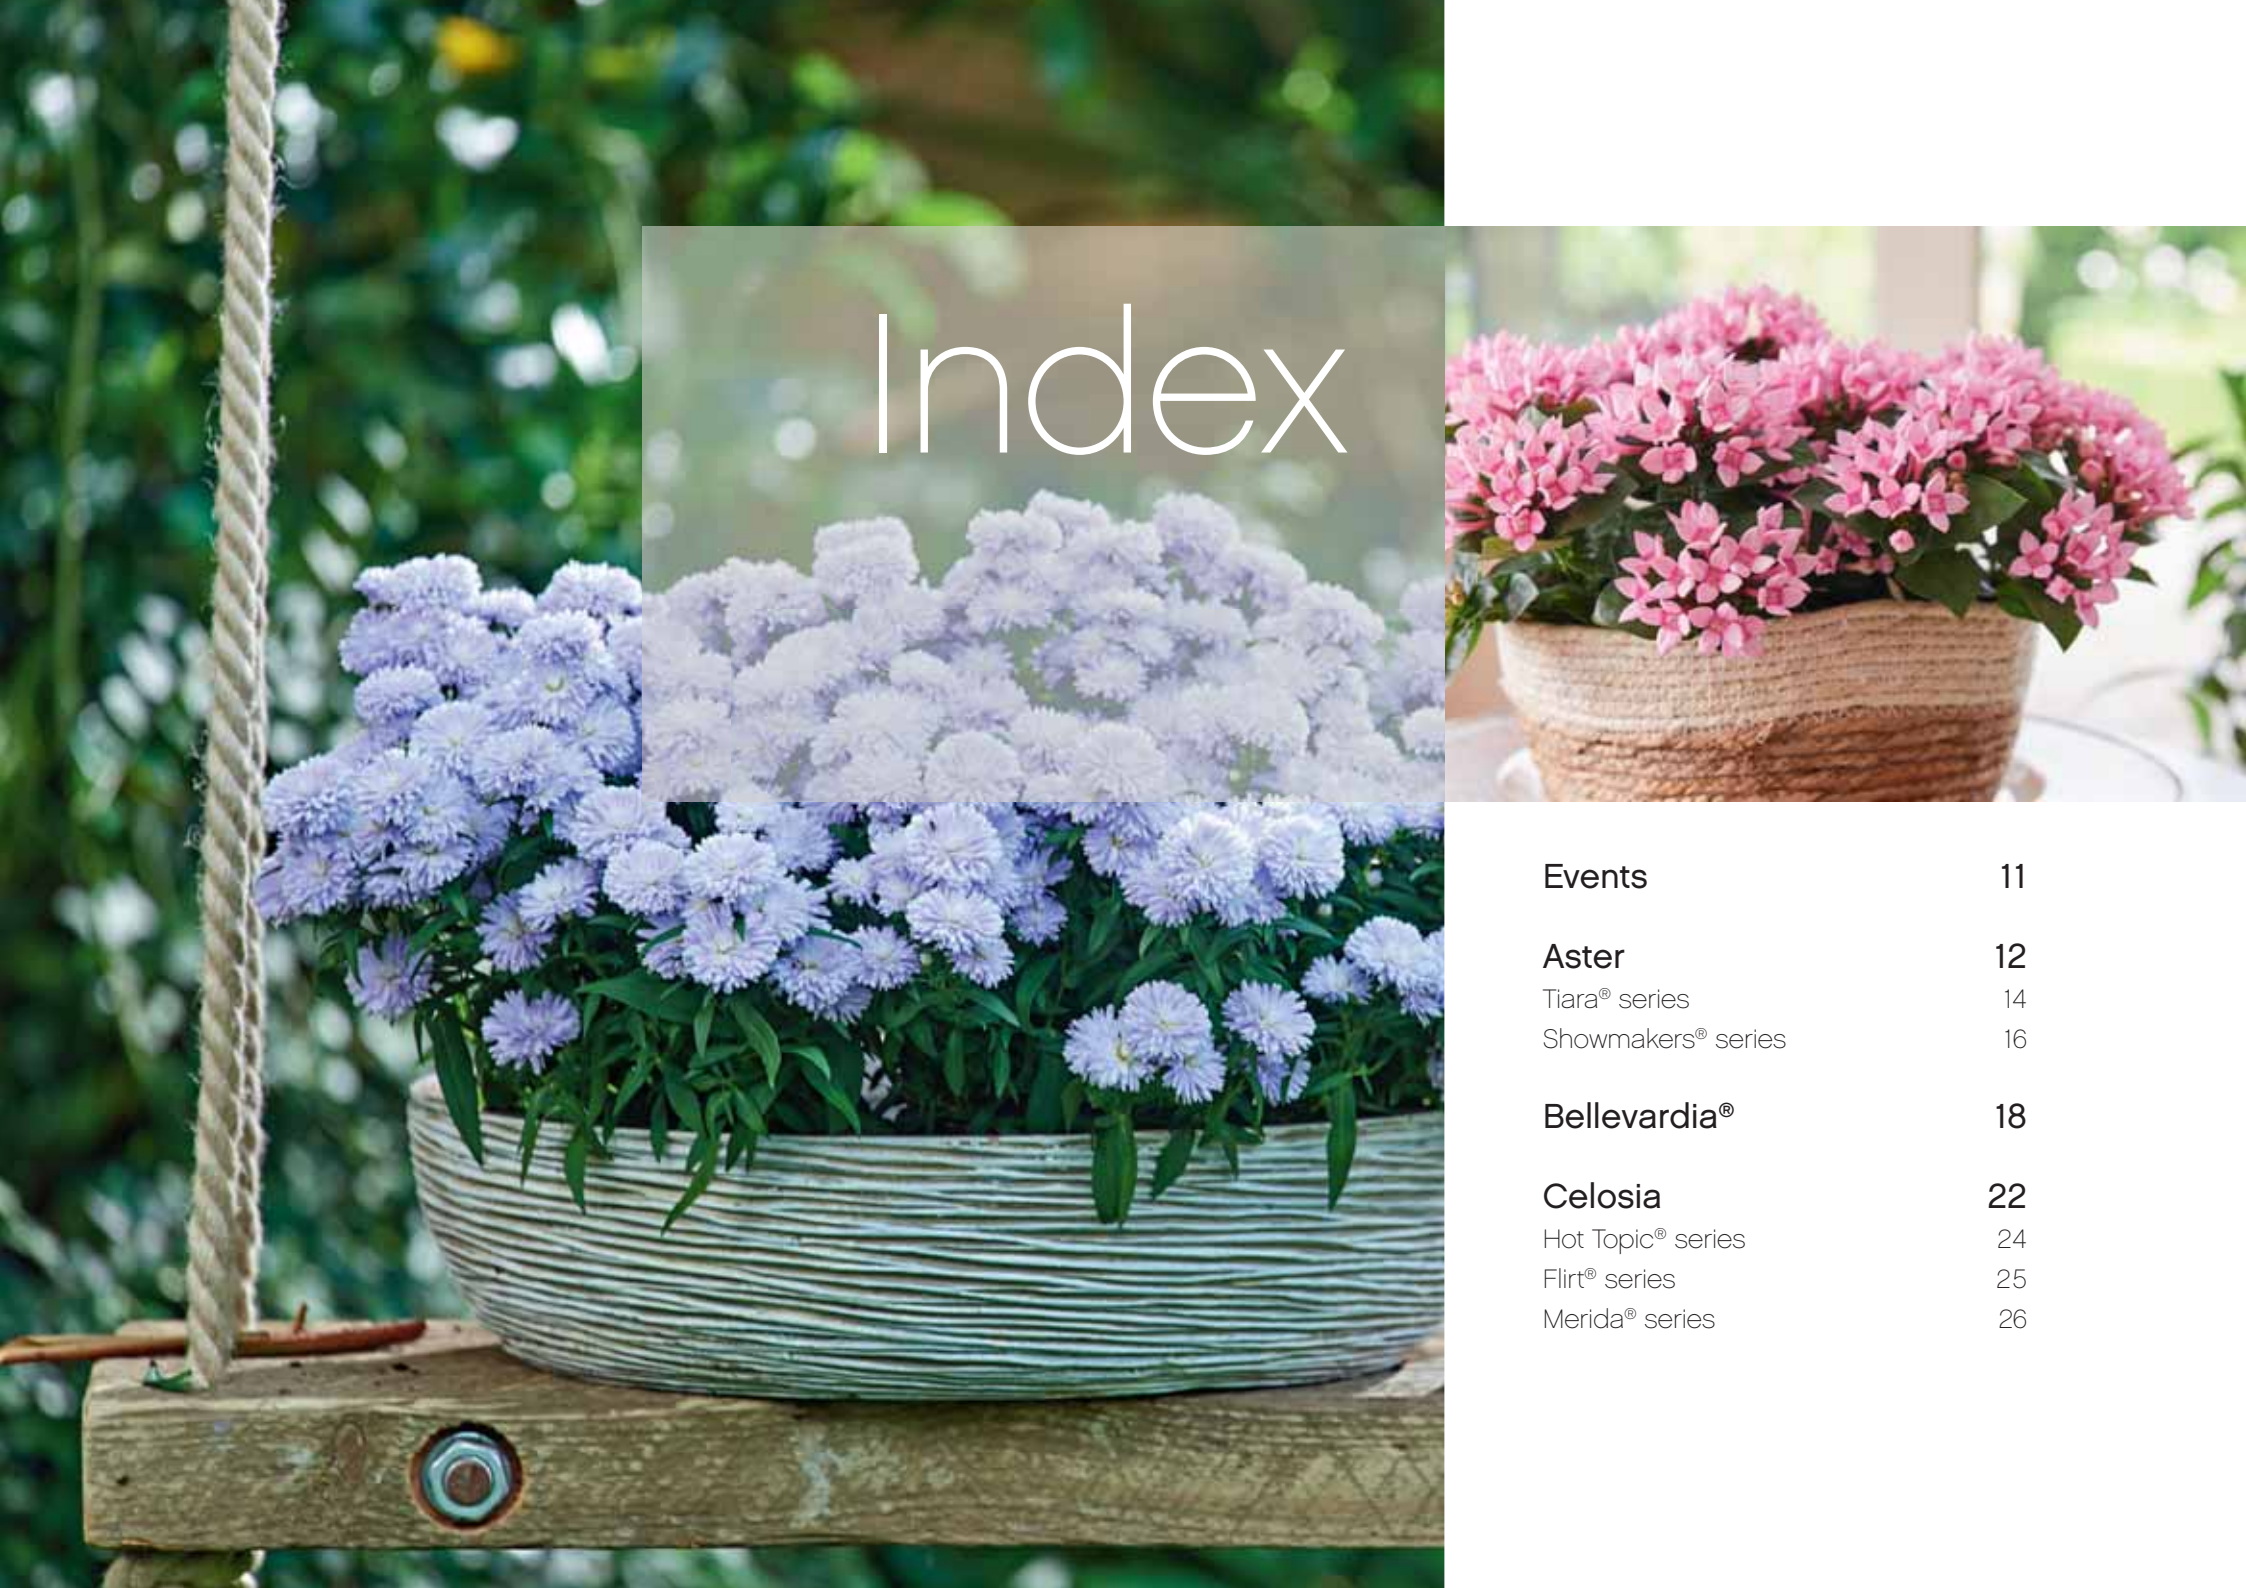

If you are interested in one of our products, please contact one of our staff. You will find the addresses at the back of this catalogue. Team Royal Van Zanten wishes you a green and successful 2018!

A close-up photograph of a large bouquet of bright yellow chrysanthemums. The flowers are in various stages of bloom, with some fully open and others as buds. They are packed together in a brown paper bag, which is visible at the bottom and sides. The background is a light-colored wall with a framed picture of a plant. An orange semi-transparent box is overlaid on the right side of the image, containing the title and a paragraph of text.

Pot Chrysanthemum

Mums are available in a wide range of colours, flower shapes and flower sizes. This great diversity means you can find the perfect MUM for every season, to complement many kinds of interior design styles, and suit every personal taste. Choose them as a gift or to please yourself!

The image shows two pots of chrysanthemums on a wooden shelf. The pot on the left contains a mix of yellow, white, and pink flowers. The pot on the right contains mostly pink flowers. The pots are light grey and cylindrical. The background is a light-colored wall with a subtle pattern. An orange semi-transparent rectangle is overlaid on the right side of the image, containing text.

New introductions

Twelve introductions in our Pot Chrysanthemum collection are also adding to the choice of new varieties. One of these is the new Fireworks™ series. A true addition to our selection of Disbud Chrysanthemums. Another variety is Grazi. A pink bi-coloured single-flowered variety with a bright green centre.

Multiflora

Multiflora provides an exciting product that will enable consumers to continue to enjoy their gardens in autumn when the spring baskets have lost their splendour. Our Multiflora are available in different colours, these can be used for single coloured or mixed coloured arrangements for a spectacle of colours in autumn.

New introductions

We are pleased to introduce our new varieties in Multiflora. In the Multiflora assortment, we're focusing on our Amadore® series. This year we can add a sixth colour to this series with Amadore® Red. The Amadore® series are suitable for indoor (blackout) as well as for outdoor cultivation.
