

STATICE | LIMONIUM

2022

ABUNDANCE OF CHOICE AND NEW COLOURS

Contemporary colours pack a new punch in our range. Besides the popular blue/purple, we now have a lot more lovely colours available in our range all year round. Both Limonium and Statice stems are beautifully structured with lots of small flowers at the end of the lateral branches, making them ideal for field bouquets. Up close, the flowers may look very delicate and fragile, but guess what – Limonium and Statice are super strong, versatile flowers with a bright, radiant look that not only have a very long vase life but also make perfect dried flowers. After drying, they retain their colour and go on giving pleasure for a long time. Back in fashion, totally hip and trendy and the perfect finishing touch for every bouquet.

ROBUSTNESS AND VASE LIFE

Besides a wide range of colours, our focus in breeding is on robustness (resistance) and vase life with outstanding production. This ensures the best possible, reliable cultivation process and a high-quality flower. Reliability is also a priority in an earlier stage: in producing our starting material, we work in a virus-free environment from start to finish. This guarantees that all our starting material is clean and reliable and offers a good balance between production and quality.

ASSORTMENT

Besides the new and absolutely unique peach colour in our Statice range, our Limonium China series also deserves special attention. This colourful series invites you to create lush bouquets and gives free rein to your creativity. The China series scores well in terms of production and vase life, too, and is therefore a real asset for growers and wholesalers alike.

PERFORMANCE

In this catalogue you will find a complete overview of our Limonium and Statice ranges. But which varieties are right for your cultivation method? To ensure we give our customers the best possible advice, we test all our varieties at different locations across the globe. So we know how they perform in a very wide variety of conditions. That's valuable information that we want to share with you so that you can make the right choice. To find out more, or if you have any questions, please get in touch.
